Familial clustering of carotid atherosclerosis (focal and diffuse intimal thickening) was studied in individuals from a large, community-based population-based sample of 293 subjects from 202 families recruited from randomly selected households of a large Spanish City. Carotid atherosclerosis was independently related to age, hypertension, and smoking habit. Familial aggregation of carotid atherosclerosis was confirmed ( $P = .0001$ ). When familial and genealogic variables were jointly included in a logistic model, a total of 10% of the variance in the presence of carotid atherosclerosis could be explained. No differences in carotid atherosclerosis were observed when the index case was a man or a woman, or when the index case was categorized as belonging to any specific family system (nuclear, extended, or half-sib). However, within a nuclear family system, the prevalence of carotid atherosclerosis was significantly higher in relatives of index cases who had atherosclerosis compared to relatives of index cases without carotid atherosclerosis. Focusing on the nuclear family system, the familial aggregation observed was explained by a significant protective effect of atherosclerosis in female relatives (OR = 0.33; 95% CI = 0.14-0.79;  $P$

The Dynamo sent the 26-year-old to Houston's USL affiliate, Rio Grande Valley, to continue his rehab, the club announced Thursday. Umberson is out for the season after injuring his right knee during a CONCACAF Champions League game last month against Marathon and will be re-evaluated later in the year. Umberson, who scored five goals in 18 appearances in 2014, was not part of the Dynamo's roster at the beginning of the preseason, but he has been a part of the squad at various points throughout camp. Dynamo head coach Wilmer Cabrera said his team relies on Umberson a little differently now that he is out for the season, and expects him back next year. "I was planning to use him in the right side, and if e79caf774b

I never gave a damn about any of the others on the show and although I have put together quite a few aa's I'll stop there. I think that shes just frienly on screen. Looking forward to seeing what they do with this season. I can't wait for the cold open ep. and I believe this one to be the best of the season. I think the Whitney story line is going to be the best in the show's history. I think I've already known about the passed relationship between Will and Charlie, but at least I can look at these episodes with a bit more of an open mind. I was watching and realized I don't know who most of the cast is. Is this pretty much the main cast and minor cast? Whitney seems to be the lone exception. I think there will be a few episodes that will pick up on some relationships that haven't been addressed yet. Also, I think it will make it more clear just how much of a bad influence Whitney is on the others. Whitney is going to be a big part of the group dynamic this season. I think they'll do a lot of stuff with her relationship with Will in particular. I think the Whitney story line is going to be the best in the show's history.
