Thanks for downloading!... .Partnering with SJC and the Iowa Administrative File System SJC Law, a joint initiative of SJC and ACCORD, continues to work with the Iowa Administrative File System (IAFS) to bring legal research to IAFS users in Iowa. Users can access the filings of Iowa's Administrative Hearing Commission by searching on SJC Law under the "search" function. Great partnership with IAFS The Solicitor General's Office provides administrative hearings for Iowa Utilities Board (IUB), which regulates Iowa's state-owned utilities. IAFS is a large body of legal filings from the IUB in Iowa's administrative system. IAFS has been a great partner with SJC Law. We have tested and refined our Iowa Legal Research suite using this critical data source. IAFS is built on a Microsoft platform, which we use to develop a personalized service for users in Iowa. The legal research we do for IAFS is reflected in our proprietary database and is made available to the public through our subscription service. "Being able to access information from IAFS allows users to research filings for attorneys and judges. It also means we are providing access to live data, which we use

to develop our findings.” Jeff Meisner, Solicitor GeneralQ:
